### ***Preventing Slips, Trips, & Falls***

The key to avoiding slips, trips and falls is learning to identify the hazards that might cause them and following these simple safety procedures.

- ◆ Pay attention to what you're doing, where you're going and what might be in your way.
- ◆ Be on the lookout for foreign substances on the floor, such as water, food or grease.
- ◆ Step over or around obstructions, not on them.
- ◆ Clean up spills and leaks right away.
- ◆ Wear shoes with non-skid soles and flat heels.
- ◆ Walk slowly, sliding your feet, on surfaces that are wet, slippery or uneven.
- ◆ Report any hazard. Make it your responsibility; don't depend on someone else to do it.
- ◆ Keep walkways and aisles clear.
- ◆ Walk, don't run. Change directions slowly.
- ◆ Make sure lighting is adequate.
