

CSC MONTHLY MAGAZINE
EMPLOYEE CONNECTION

Our Mission is to provide services of the highest quality for people with cognitive and developmental disabilities and related disorders including autism that optimize each individual's independence and capabilities, ensure self-determination and rights and, with partnerships in the community, enhances their opportunities to live healthy, safe and valued lives.

Our Vision is to provide programs and services to individuals with developmental disabilities and related disorders including autism to live and work in the community and exercise their rights, choice and freedom and to live independent of institutional life through integrated efforts of change agents who are passionate about changing lives of people with disabilities throughout the world.

EMPLOYEE OF THE MONTH

Samuel Alele

is a wonderful addition to the Children's Program. Samuel is very engaged with the children. He is also organized, and on top of all appointments in the home. He ensures that the children participate in virtual school each day. He plays basketball with the children and takes them on daily walks around the neighborhood.

Loveth Aliemeke

has been recognized as February's employee of the month. She very well communicates with her supervisors to ensure that the ones under her care are well taken care of. She never calls out and will come in early, or even stay late, if need be. She is very compassionate and cares a lot about their health and safety along with their happiness.

WE'RE HIRING!

PERSONAL SUPPORT STAFF REQUIRED

Center for Social Change and the family of a child is looking for a highly-skilled, motivated, and compassionate staff to work with an 11 year old child who has multiple disabilities.

Training required: All DDA mandated training, including CPR, First Aid, and Mandt.

Correct and consistent mask use is a critical step everyone can take to prevent getting and spreading COVID-19. Masks work best when everyone wears them, but not all masks provide the same protection. When choosing a mask, look at how well it fits, how well it filters the air, and how many layers it has. Two important ways to make sure your mask works the best it can like icon

Make sure your mask fits snugly against your face. Gaps can let air with respiratory droplets leak in and out around the edges of the mask like icon

Pick a mask with layers to keep your respiratory droplets in and others' out. A mask with layers will stop more respiratory droplets getting inside your mask or escaping from your mask if you are sick.

Do's

Choose a mask with a **Nose Wire**

- A nose wire is a metal strip along the top of the mask

- Nose wires prevent air from leaking out of the top of the mask.
- Bend the nose wire over your nose to fit close to your face.

Use a **Mask Fitter or Brace**

- Use a mask fitter or brace over a disposable mask or a cloth mask to prevent air from leaking around the edges of the mask.

Check that it **Fits Snugly** over your nose, mouth, and chin

- Check for gaps by cupping your

hands around the outside edges of the mask.

- Make sure no air is flowing from the area near your eyes or from the sides of the mask.
- If the mask has a good fit, you will feel warm air come through the front of the mask and may be able to see the mask material move in and out with each breath.

Add Layers of material

2 ways to layer

- Use a cloth mask that has multiple layers of fabric.
- Wear one disposable mask underneath a cloth mask.
- The second mask should push the edges of the inner mask against your face.

Make sure you can see and breathe easily

Knot and Tuck ear loops of a 3-ply mask

- Knot the ear loops of a 3-ply face mask where they join the edge of the mask
- Fold and tuck the unneeded material under the edges

Do NOT

Combine two disposable masks

- Disposable masks are not designed to fit tightly and wearing more than one will not improve fit.

Combine a KN95 mask with any other mask.

- Only use one KN95 mask at a time.

Happy Birthday
