WINTER STORM SAFETY

Winter storms can bring extreme cold, freezing rain, sleet, heavy snowfall, ice, and high winds. These storms can cause transportation, heat, power, and communication disruptions. They also can close schools, stores, and workplaces.

We can take action to prepare. Prepare now to protect yourself, your loved ones, and your home. Take immediate precautions if you hear these words on the news:

Winter Storm WARNING: Life-threatening, severe winter conditions have begun or will begin within 24 hours.

Blizzard WARNING: Sustained winds or frequent gusts of 35 miles per hour or greater, plus considerable falling or blowing snow reducing visibility to less than a quarter mile, expected to prevail for three hours or longer.

Other winter storm words to listen for:

- **WIND CHILL Temperature:** How cold people and animals feel when outside. As wind increases, heat is carried away from your body at a faster rate, driving down your body temperature and making you feel much colder. The wind chill temperature is not the actual temperature but rather how wind and cold feel on exposed skin.
- **Winter Storm OUTLOOK:** Winter storm conditions possible in the next two to five days. Stay tuned to local media for updates.
- **Winter Storm WATCH:** Winter storm conditions possible within the next 36 to 48 hours. Review your winter storm plans and stay informed about weather conditions.
- **Winter Weather ADVISORY:** Winter weather conditions expected to cause significant inconveniences and may be hazardous but not life-threatening if you are cautious.
