EMPLOYEE OF THE MONTH

Khadijat Jaiyeola is a dedicated employee who works as a weekend staff. She is known for her reliability, commitment, and punctuality in completing assigned tasks. Her positive attitude towards work is commendable and she always strives to provide the best care and support to the individuals under her care. Khadijat also takes great pride in maintaining a well-organized and clean unit. With years of experience in her role, Khadijat is well-equipped to handle all assigned shift duties and responsibilities.

Antoinette Sawah is a hard-working staff and an essential member of our children's program. She always ensures that the children are well taken care of. With her fun-loving personality, she creates a positive and nurturing environment for the children to thrive in. As a responsible staff, Antoinette takes her role seriously and listens attentively to the needs and wants of the children. We are grateful for having someone like Antoinette on our team, who goes above and beyond at work.

Jobson Omolewa's enthusiasm and hard work are highly valued at CSC day program. He is not only punctual, but also willing to assist with medical appointments for the individuals. Additionally, Jobson always steps up whenever needed. He takes on extra tasks without complaint and consistently puts in 100% effort to ensure that everything runs smoothly at the day program. His positive attitude and strong work ethic make him a valuable asset to the team.

FLU SEASON AHEAD

The single best way to reduce the risk of seasonal flu and its potentially serious complications is to **GET VACCINATED** each year, but good health habits like avoiding people who are sick, covering your cough and washing your hands often can help stop the spread of germs and prevent respiratory illnesses like flu. There also are flu antiviral drugs that can be used to treat and prevent flu.

- 1. Avoid close contact.**
Avoid close contact with people who are sick. When you are sick, keep your distance from others to protect them from getting sick too.
- 2. Stay home when you are sick.**
If possible, stay home from work, school, and errands when you are sick. This will help prevent spreading your illness to others.
- 3. Cover your mouth and nose.**
Cover your mouth and nose with a tissue when coughing or sneezing. It may prevent those around you from getting sick. Flu viruses spread mainly by droplets made when people with flu cough, sneeze or talk.
- 4. Clean your hands.**
Washing your hands often will help protect you from germs. If soap and water are not available, use an alcohol-based hand rub.
- 5. Avoid touching your eyes, nose or mouth.**
Germs can be spread when a person touches something that is contaminated with germs and then touches his or her eyes, nose, or mouth.

Practice other good health habits.

Clean and disinfect frequently touched surfaces at home, work or school, especially when someone is ill. Get plenty of sleep, be physically active, manage your stress, drink plenty of fluids, and eat nutritious food.

INFECTION PREVENTION IS EVERYONE'S RESPONSIBILITY
